Statewide Contract ITC71 began June 1st, 2019 and replaced FAC64.

Contract Summary

This is a Statewide Contract for Security surveillance and detection. This contract covers the acquisition of Security Systems and Related Services to include, but not limited to, Video, Access Control, Integrated Video Management, Visitor Management, Locks, Alarms, Monitoring Services/Systems, Catalog Sales, Service, and Maintenance.

Contract Categories

Category 1: Catalog Sales

This category is only for catalog sales for security equipment and supplies that is within the scope of this contract.

Category 2: Security Systems Integration (Equipment and Related Services)

This category is to provide security integration services; specifically the Contractor must be able to provide equipment, systems, supplies, installation, design services, training, service and maintenance, and technical support for all equipment and related services. This includes, but is not limited to: configuration and integration of security, camera, access control, or ID systems and supplies; lobby turnstiles; vehicle access barriers; command centers; detection systems (including x-ray machines, metal detectors, full-body scanners, explosives, narcotics, vehicle-borne, environmental, buried cable, fence, or infrared detection systems); racks, housings, security consoles, mounts, stand-alone computers, secured data storage (local and/or cloud), encrypted data transmission (wired, wireless, and/or cloud-based) and the ability to track encrypted data transmissions; and furniture/fixtures when designed or purchased for use in a security application.

Category 3: Security Systems Monitoring Services

This category is to provide security systems monitoring services in following types of locations: facilities (buildings, garages, tunnels, etc.), campuses (groups of buildings, that may include fencing and gates, etc.), and residential group homes. Category 3 is for system monitoring services ONLY. Contractors wishing to provide both monitoring and installation services must submit proposals under both Category 2 and Category 3.

Category 4: Locks, Locksmiths, Door Closures, and Related Hardware

This category is to provide full service installation, maintenance, and catalog sales of locks, accessories, and related equipment. This includes, but is not limited to: padlocks, locks, keys, mortis locks, lock cylinders, auxiliary, deadbolt, door closures, key making machines, supplies and repair parts, handicap door openers, panic bars, hasps and hasp locks, institutional locks and door systems (paracentric locks, high security mogul locks, sliding door operators-institutional) and accessories, safes, and locksmith tools or security supplies.

Benefits and Cost Savings

Statewide contracts are an easy way to obtain benefits for your organization by leveraging the Commonwealth's buying power, solicitation process, contracting expertise, vendor management and oversight, and the availability of environmentally preferable products.

- Competitive discounts on a wide range of security products
- Competitive hourly wage rates and markups over prevailing wage
- Prompt payment discount opportunities
- Certified Supplier Diversity Office vendors
- Multiple vendors in each category for competition
- Ability to add new products/manufacturers that fit the scope of the RFR

Find Bid/Contract Documents

- To find all contract-specific documents, including the Contract User Guide, RFR, specifications, price sheets and other attachments, visit [COMMBUYS.com](https://www.commbuys.com) and search for ITC71 to find related Master Blanket Purchase Order (MBPO) information.
- To find all contract-specific documents, including the Contract User Guide, RFR, specifications, and other attachments, visit [COMMBUYS.com](https://www.commbuys.com) and search for ITC71 to find related Master Blanket Purchase Order (MBPO's) information. All common contract documents are located in the "Master Contract Record" Master Blanket Purchase Order (MBPO) for ITC71 and can be accessed directly by visiting [Master Blanket Purchase Order PO-19-1080-OSD03-SRC3-16463](#).

To find vendor-specific documents, including price sheets, see links to individual vendor MBPOs on the [Vendor Information](#) page.

Who Can Use This Contract

Applicable Procurement Law

Executive Branch Goods and Services: MGL c. 7, § 22; c. 30, § 51, § 52; 801 CMR 21.00;

Eligible Entities

Please see the standard list of Eligible Entities on our [Who Can Use Statewide Contracts](#) webpage.

Subcontractors

The awarded vendor's use of subcontractors is subject to the provisions of the Commonwealth's Terms and Conditions and Standard Contract Form, as well as other applicable terms of this Statewide Contract. Prior approval of the customer is required for any subcontracted service of the Contract. Contractors are responsible for the satisfactory performance and adequate oversight of their subcontractors.

Construction on ITC71

This contract may be used for construction, reconstruction, alteration, installation, demolition, maintenance or repair services and, if needed, associated materials. **All construction or construction related labor provided under this contract is limited to \$50,000 or less per engagement.** Any services provided that would exceed \$50,000 in labor costs must go out to a public bid.

Eligible Entities will be allowed to contract with any Contractor under Statewide Contract ITC71 for services for building or public works construction projects estimated to cost **less than \$10,000** without the need to solicit multiple written price quotations when procuring these services, unless required by the Eligible Entity's internal procurement policies and requirements. Eligible Entities must use sound business practices which require a record that includes, at a minimum, the name and address of the person from whom the services were procured.

If using Statewide Contract ITC71 for building construction or public works projects estimated to cost **between \$10,000 and \$49,999** (this amount is capped for construction or construction-related labor only), **Eligible Entities are required to solicit a minimum of at least three (3) responses from ITC71 Contractors and MUST receive two (2) written responses from ITC71 Contractors**, provided that the contract shall be awarded to the responsible person offering to perform the contract at the lowest price quotation. If the project requires additional equipment/parts/materials the costs associated with such materials may exceed \$50,000.

Tip: Buyers should request that vendors itemize their quotes so that the construction and/or construction-related services are isolated and easily identifiable. Only the labor costs are counted against the thresholds.

For purposes of construction procurement thresholds, **the act of pulling cables or wiring through existing conduits is not considered a construction activity.** The labor is however subject to prevailing wage law.

In instances where Statewide Contract ITC71 is used for construction or construction related labor in excess of \$25,000, [M.G.L c.149 s.29](#) **payment bonds** are required from the selected Contractor. It is the responsibility of the Eligible Entity to enforce this requirement when soliciting quotes. Eligible Entities may require additional performance and payment bonds from the Contractor, which would be detailed in the Statement of Work

The terms "Construction" and "constructed" are defined by [M.G.L c. 149 s.27D](#). It is the responsibility of the Eligible Entity to consult their legal counsel for assistance determining whether installation work includes construction as defined by [M.G.L. c.149](#) or [M.G.L. c.30 s.39M](#). Information concerning specific construction requirements may be found in the [Office of the Inspector General's Public Procurement Charts](#). Chapter 30B Procurement Assistance from the Office of the Inspector General is available at mass.gov/ig/procurement-assistance. Contact the 30B Hotline at 617-722-8838 or 30BHotline@mass.gov.

Pricing, Quoting, and Purchasing Options

Pricing Options

- **Ceiling/Not-to-Exceed:** Contract discounts and other pricing published under the contract represents “ceiling” or “not-to-exceed” pricing, and may be further negotiated.
- **Category 1 – Catalog Sales**
 - Discount % off of MSRP or List price.
- **Category 2 – Security Systems Integration (Equipment and Related Services)**
 - Products: discount % off MSRP or List price for products.
 - Services: mark-up % over prevailing wage or hourly wage rates.
- **Category 3 – Security Systems Monitoring Services**
 - Service rates.
- **Category 4 – Locks, Locksmiths, Door Closures, and Related Hardware**
 - Products: discount % off MSRP or List price for products.
 - Services: mark-up % over prevailing wage or hourly wage rates.

Quoting Options

Buyers should always reference “ITC71” when engaging with vendors to ensure that they receive all of the benefits and savings associated with the statewide contract. For non-construction related purchasing it is recommended that buyers solicit multiple quotes for purchases under this statewide contract. For projects involving construction or construction related labor, please review the [Example Quoting Scenarios for Category 2 or 4](#).

Purchasing Options

The purchase options identified below are the only acceptable options that may be used on this contract:

- Purchases made through this contract will be direct, outright purchases

Category 2, 3 and 4 may include fee for service

Product/Service Pricing and Finding Vendor Price Files

Pricing is available for download from the [Master Contract Record](#) page.

Emergency Services

Many statewide contracts are required to provide products or services in cases of statewide emergencies. [801 CMR 21.00](#) defines emergency for procurement purposes. Visit the [Emergency Contact Information for Statewide Contracts](#) list for emergency services related to this contract.

Delivery

Delivery must be F.O.B. destination with no delivery or travel expenses paid by the Eligible Entity with the exception of deliveries to Dukes and Nantucket Counties. Contractor must deliver all purchases or initiate installation within thirty (30) business days after receipt of written order or at a time mutually agreed upon by the Eligible Entity.

Returns

Services and products/materials provided by Contractors must meet all federal, state, and local standards for quality and safety requirements. Services and products/materials not meeting standards will be deemed unacceptable and returned to a Contractor for credit at no charge to the Commonwealth.

Prevailing Wage Requirements

Services performed under Categories 2 and 4 may be subject to prevailing wage laws. Eligible Entities that utilize this contract will be considered the “awarding authority”. Eligible Entities are required to request prevailing wage rate sheets at <https://www.mass.gov/prevailing-wage-program> (or by calling 617-626-6975) and provide these to the vendor. Vendors are responsible for complying with the Prevailing Wage law.

Category 4 – Locksmiths

Per the Massachusetts Department of Labor Standards, when covered by the prevailing wage, locksmith work falls under the carpenter rate.

Example Quoting Scenarios for Category 2 or 4

Example 1 – Construction or Construction Related Labor UNDER \$10,000

You are an Eligible Entity soliciting quotes for a Category 2 or 4 project involving construction or construction related labor. Your quote for the construction or construction related labor costs are \$8,500. Additional parts and materials will cost \$12,000. The total estimated cost of this project will be \$20,500.

STEP(S):

1. Select a vendor based on sound business practice/best value.

Example 2 – Construction or Construction Related Labor BETWEEN \$10,000 and \$50,000

You are an Eligible Entity soliciting quotes for a Category 2 or 4 project involving construction or construction related labor. Your quote for the construction or construction related labor costs are \$35,000 and another \$20,000 for pulling cables through existing conduits in your building. Additional parts and materials will cost \$80,000. The total estimated cost of this project will be \$135,000.

STEP(S):

1. **MANDATORY:** Request quotes from at least three (3) vendors on ITC71 within the same category.

2. **MANDATORY:** Receive at least two (2) written responses from vendors on ITC71 within the same category.
3. **MANDATORY:** Award project to the ITC71 vendor with the lowest responsible response.

Example 3 – Construction or Construction Related Labor GREATER THAN \$50,000

You are an Eligible Entity soliciting quotes for a Category 2 or 4 project involving construction or construction related labor. Your quote for the construction or construction related labor costs are \$75,000. Additional parts and materials will cost \$150,000. The total estimated cost of this project will be \$225,000.

STEP(S):

1. **MANDATORY:** Eligible Entity must go out to public bid and cannot use ITC71 due to labor costs being greater than \$50,000.

How to Purchase From the Contract in COMMBUYS

Setting up a COMMBUYS Account

COMMBUYS is the Commonwealth's electronic Market Center supporting online commerce between government purchasers and businesses. If you do not have one already, contact the COMMBUYS Help Desk to set up a COMMBUYS buyer account for your organization: 888-627-8283 or COMMBUYS@mass.gov.

Directly purchase a non-fixed price item (\$0 line item) through COMMBUYS

All vendor MBPO pages have a \$0.00 line item for each category they are awarded. When placing an order in COMMBUYS a contract user needs to type in the total cost of the order and may add invoice/quote information as reference either by typing in the information or attaching as a file.

Solicit quotes and select and purchase quoted item in COMMBUYS

ITC71 has "Solicitation Enabled" category MBPO pages on COMMBUYS. This feature allows COMMBUYS users to obtain quotes from multiple vendors at once from the same category. The buyer would create a Release Requisition, and then convert it to a Bid. After approval by the buyer approving officer, the bid is then sent to selected vendors to request quotes.

For more information on how to complete this purchase in COMMBUYS, visit the [Job Aids for Buyers](#) webpage.

Additional Information

Banning of Dahua and Hikvision

In response to the ban enacted by [H.R.5515 - John S. McCain National Defense Authorization Act for Fiscal Year 2019](#), Section 889 on Hangzhou Hikvision Digital Technology Company and Dahua Technology Company (or any subsidiary or affiliate of such entities) products from both manufacturers are forbidden on ITC71.

Negotiation

Eligible Entities have the right to negotiate pricing or other aspects of purchases within the scope of the contract and are encouraged to do so.

Pre-Installation

It is the Vendor's responsibility, prior to delivery, to survey and review the particular installation location to ensure the existing proposed location will meet the manufacturer's established installation criteria. Should the proposed installation location not meet established installation criteria, the Vendor and the Eligible Entity will attempt to locate an alternate mutually agreeable location for the equipment at the particular site.

Vendors not familiar with any location are strongly advised to personally view those locations prior to delivery. A lack of familiarity with an installation location will in no way relieve a vendor from its responsibility to fulfill its contractual obligations.

Compliance with Regulatory Requirements

Vendor must maintain full compliance with all Regulatory Licensure Boards' (State Board of Electrical Examiners, Department of Public Safety) licensing requirements for all work.

Post-Installation

Vendor must be responsible for all installation of equipment and/or supplies and removal of all package material from the premises in coordination with the Eligible Entities instructions. For off-site monitoring services, Vendor must ensure there are systems current to meet the needs of the Commonwealth and remain current against intrusive/invasive systems that could compromise the installed system(s).

Anticipated Service Disruption

Vendor must coordinate with the Eligible Entity for any anticipated service disruption. If anticipated disruption is scheduled the Vendor must provide a minimum of 24 hours' notice to the Eligible Entity.

Training and Training Materials

Vendors must provide significant training to designated personnel within the Eligible Entity during the final system testing and start-up phase of a project. The vendor and Eligible Entity shall mutually agree on the duration as well as the location and schedule of the training. Training materials include, but are not limited to books, handouts, software, or customized training videos will be provided by the vendor and will be given to the Eligible Entity at no additional cost, as agreed upon by the parties.

Software Licenses

Where applicable, the cost of software licenses should be included in the Service Maintenance Agreement. Eligible Entities may also purchase software licenses separate from any Service Maintenance Agreements.

Warranties

Vendors must provide a standard warranty for all equipment of at least 1 year in length. Eligible Entities may purchase extended warranties with vendors at negotiated pricing. Please review the ITC71 price file on COMMBUYS for information regarding the availability of extended warranties. Vendor must affix a label or decal to the control device for any equipment at the time of installation showing warranty period by dates, and the name, address, and telephone number of the OEM or Reseller responsible for warranty service of the equipment. A successful installation is constituted by the product, equipment or system being fully capable of functioning to its fullest capacity and according to its design and is unencumbered by flaws resulting from poor installation. System Acceptance (final sign-off) will be provided by the user entity acknowledging final acceptance of a successful installation. System Acceptance cannot be unreasonably withheld by any entity, the contract manager or the project manager.

No pre-payments

Vendor may not request any form of pre-payments by the Eligible Entity before the service is rendered. For special projects implemented in phases, by mutual agreement of the Eligible Entity and the Vendor, invoices must be issued after each phase is completed to the Eligible Entity's satisfaction.

No Minimum Charge

Contractors are paid only for hours worked on location. Labor charges begin at job location and end at job location. Eligible Entity will not pay for any additional labor charges away from job location.

No Additional Fees and Surcharges

Contractors are not allowed to charge additional fees or surcharges with the exception of deliveries to Dukes and Nantucket Counties. This includes, but is not limited to, charges for permits, set-up, cleaning, freight, shipping, quotes, travel, transportation, delivery, commuting, fuel, energy, insurances, meals, lodging, and any other fee.

Statement of Work Example

Eligible Entities should provide a clear Statement of Work to the vendors at the time of the request for quote.

The following are some elements to consider including in a statement of work:

Important Elements of the Statement of Work:

- Reference to the Statewide Contract ITC71
- Prevailing wage sheets, as applicable to the job
- Work schedules and performance dates
 - Release Date of the Request for Quote
 - Walkthrough requirements, if required
 - Response Date of Request for Quote
 - Date of Vendor Selection
- Responsibilities of the Vendor
 - Agrees to fulfill all provisions of the ITC71 statewide contract
 - Responsible for complete design, measurements, and drawings
 - Delivery, installation, testing, training, design and start up
 - Replace, modify, or upgrade existing hardware as necessary
 - Include the cost of any software licenses in bid
- Whether sub-contractors will be allowed
- Eligible Entity Reserves right to negotiate and modify requirements with awarded Vendor
- Submittal Requirements
 - Narrative – how proposer will complete scope of work
 - Estimated timeline from release of purchase order to system live
 - Drawing Requirements
- Service/Maintenance Agreements
 - Response time guarantees desired
- Up time guarantee
